Wan Liang Hua Kun II

10,000 Lotus Blooming – 2nd Road

One of KungFu's Rare, Elegant, Fluid and Subtle Internal Fighting Systems!

It is the most internal of all the internal systems. It goes inside your body so you feel every movement of your body with your chi. It was created by the Shaolin monks specifically to complement Liu Hsing, the Meteor Fist. However, unlike Liu Hsing's furious blasting movements, Wan Liang Hua Kun's movements are more subtle and use your chi to make your body turn alive. It's implications are not limited to martial arts fighting skills. The greatest benefit is its life-changing aspect.

*****This system of KungFu training is an exceptionally specialized and ancient set, incorporating both empty-hand and weapon forms.***

*****In generations past, access to it was restricted to higher-ranking senior students, selected specifically by their Master***

*****In traditional Chinese Martial Arts, the Lotus serves as both a physical movement pattern, and a philosophical symbol of harmony, inner calm, and duality.***

*****This system is often taught, after KungFu students have trained in both Tai Chi and other Chi Kung skills, promoting longevity and vitality.***
